SUCCESSFUL INDEPENDENT ARTIST SINCE 1991

I am a designer whose creativity manifests in motion graphics, moving imagery, and bringing experiences to life across screens of all types.

I understand how objects moving through space and time can communicate as much as the forms of the objects, themselves.

I am always pushing to make the best work, whether it's bringing an interface to life, telling a complex story, or creating the perfect transition.

I love the art of storytelling, but also just love to animate.

I enjoy discovering and experiencing new technologies and visual approaches.
